

Let the . . . YELLOW PAGES . . . help you

The Yellow Pages—your “Where-to-Buy-It” telephone directory—are intended to be of service to you. Here, under convenient headings, where you can find them quickly, are listed most of the business firms and professional men in town.

The Yellow Pages are intended to make it easier for you to use your telephone. But they will, in addition, give you much valuable information about names and addresses. Here are five situations in which you can use them to advantage:

1. When you want the telephone number of a business or professional man. Lists of names are shorter here, easier to scan. Instead of poring over long columns of “Smith” in the white pages, you usually spot “Smith James R.” at a glance under “Physicians.”
2. When you don’t know who sells an article or service you want. Suppose your automobile battery needs overhauling. Look under “Batteries.” You’ll find the names of the shops that do such work.
3. When you’ve forgotten the name of a shop, but remember its location. You know, for instance, that there is a beauty shop near a certain corner. Look under “Beauty Shops” for one with that address. You’ll find its name and telephone number.
4. When you must locate the nearest dealer or shop quickly. For example, a water pipe is leaking. Turn to “Plumbers.” Run down the list until you find one with an address near you. His name and telephone number will be shown.
5. When you want a certain brand of goods — perhaps one that you’ve seen advertised. Many trade marks are listed here — Goodyear Tires, Kelvinators, Chevrolets, the Insurance Company of North America. Under them, you’ll find a list of dealers.

An Extension Telephone?

An extra telephone instrument connected to your present line is an extension telephone. It costs but a small additional sum and may be located in a different part of the house than the telephone you have now.

In the kitchen an extension enables you to both make and answer calls without leaving the room or deserting the task which you happen to be doing.

In the bedrooms you may telephone in privacy and comfort day or night with an extension telephone.

Our Business Office will arrange for prompt installation or any telephone employee will gladly take your order.

ILLINOIS BELL TELEPHONE COMPANY

—and that's what the Statistician does for industry

DEFINITE knowledge of "where we are" and "what lies ahead" is as vital in business as in flying. For this expert navigating, the Bell System has long relied upon statisticians.

These men study present and prospective industrial, economic and social conditions in all parts of the country. They gather facts—analyze them, correlate them, discover their significance to the telephone business, draw guidance from them. They study and forecast the changing requirements of the public for telephone service. They estimate the probable future demand for new services, such as radio telephony to foreign lands and ships at sea. They keep the executives advised as to current progress towards the objectives thus carefully determined.

Only by plotting a course scientifically can the Bell System continue to develop along progressive lines.

ILLINOIS BELL TELEPHONE COMPANY

IT FITS TODAY'S BUYING MOOD

The telephone meets today's buying temper by giving bigger money's worth than ever before. The coin that buys a call today gets improved service, better voice transmission, quicker connections, and more miles.

Improvements like these do not spring up overnight. They are the result of patient research, of honest self-criticism among telephone workers seeking and finding ways to "do it better."

The Bell System's policy of giving greater value finds public response in the use of the telephone.
